Applicant Grade Profile of Singapore Universities

Hello!! Here are the grades profiles (aka "cut-off" points) of students who have been offered a place at the 3 local Universities (NUS, SMU and NTU) for the last intake, 2010 admission.

Looking beyond Just Admission Requirements

Note that it is different from admission requirements. Admission requirements are just requirement you need to fulfill for application. The grade profiles are a clearer indicator of whether you can get into the desired courses.

Grade Profiles of Successful Applicant

Note that the lower end of the grade represents the 10th percentile (bottom 10%) of applicant. Use that as an indicator to gauge your chances of getting into that course. If your grades are equivalent to the 10th percentile applicant, chance of getting into the particular course of your choice should be reasonable. The idea is exactly the same as when you rank your Junior College chooses based on their cutting points.

Rank Your Choice

Therefore, rank your choose wisely and good luck for your application. Lastly, for my Students, do SMS me if you need any advice on your choices or help in your application, I hope this compilation will be helpful!
